Summary of reasons for decision:

The publication is an anime-style image file of a female character taking off her top. While she is shown partially nude and may potentially be a young person, the tone of the image is naturalistic rather than titillating and the character is of indeterminate age. The image is not reasonably capable of being regarded as sexual in nature and does not get through the subject matter gateway, nor does it deal with any other criteria under the FVPC Act. It must therefore be classified unrestricted. This classification does not impede on the right to freedom of expression in any way.
